SUBJECT: DoD Nonappropriated Fund Standard General Ledger Revision

Reference: Principal Deputy Assistant Secretary of Defense (Readiness and Force Management)
Memorandum, "Revised DoD Nonappropriated Fund Standard General Ledger,"
June 30, 2015

This memorandum revises the nonappropriated fund (NAF) standard general ledger (NAFSGL) and the NAF common accounting code framework at Attachments 1 through 6, previously revised and published by the referenced memorandum. The attachments are: (1) NAFSGL Framework, (2) General Ledger Account Codes List, (3) Installation List, (4) Nonappropriated Fund Instrumentality (NAFI) Fund List, (5) Activity and Cost Center Codes List, and (6) Chart of Accounts. A joint working group comprised of senior NAF accounting experts from the Services, the Defense Finance and Accounting Service, and members of my staff updated this common NAF accounting framework. The revised NAFSGL will apply to all DoD NAFls, except NAFls where accounting is currently handled through a Military Service exchange financial system. This office will coordinate any future revisions of the NAFSGL with all stakeholders.

For additional information please contact Mr. Michael Curtis at (571) 372-6633 and michael.r.curtis.civ@mail.mil.

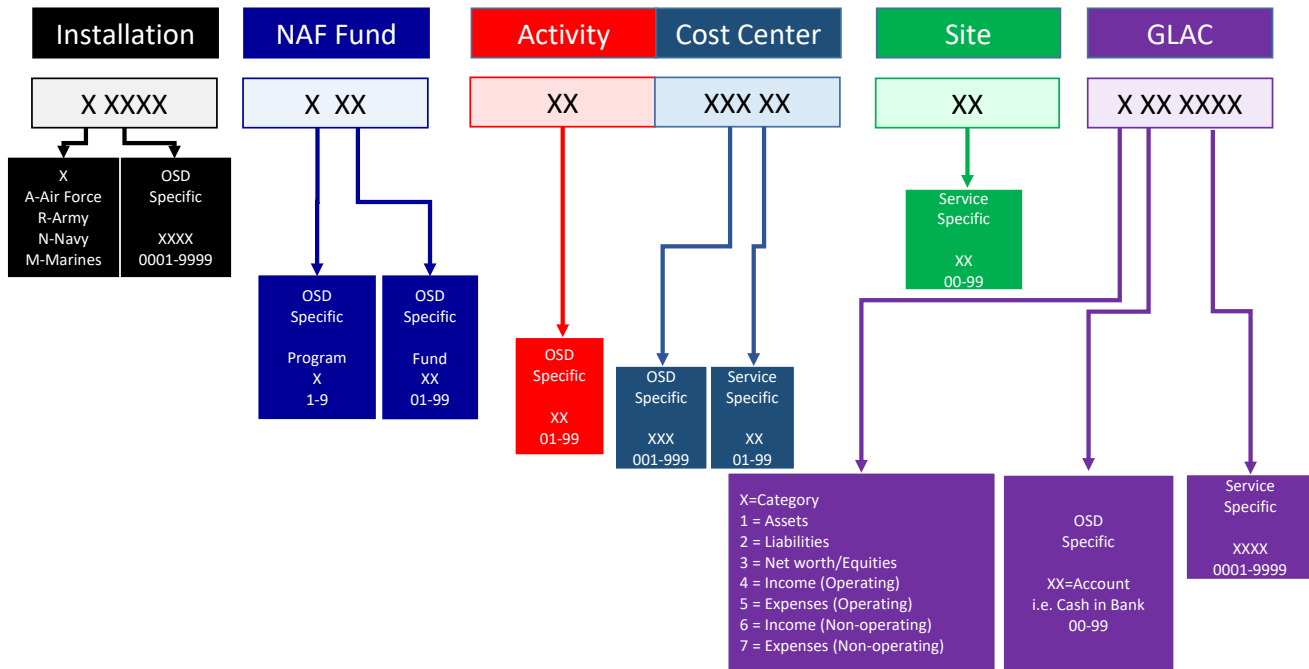

Ann G. Johnston
Deputy Assistant Secretary of Defense
(Military Community and Family Policy)

Nonappropriated Fund Standard General Ledger (NAFSGL)
NAFSGL Framework

Nonappropriated Fund
Common Account Code Elements

Installation (page 4)

A five-character code that indicates the Military Service and the location where the NAF program is physically or virtually located.

Nonappropriated Fund (NAF) Fund (Page 13)

A three-digit code that indicates the NAF Program Group and the type of NAF operation (e.g. Military MWR, DoD Lodging, Military Academy Athletic Fund). A NAFI is a fiscal entity of the U.S. Government that is supported in whole or in part by NAFs. More information about NAF Program Groups and the definition of NAFIs is in DoDI 1015.15.

Activity*

A two-digit code that indicates a specific program or an operational program of a NAFI designed to increase the well-being of authorized MWR users. An activity identifies operational organizations within the service structure, examples include bowling, camping, lodging and golf.

Cost Center*

A three-digit code that is a subset or sub account and gives a more detailed view of a business activity, it is used to identify the accounting subdivision of a NAFI. NAFIs consist of one or more subdivisions called cost centers. Transactions relating to one operational activity (e.g., an NCO club) are recorded into one or more cost centers (e.g., bar, restaurant, snack bar, etc.).

Site**

A two-digit code for similar activities operated at separate physical locations that are associated with the same installation. For example, an installation might have two bowling alleys or three clubs. Service would provide a consecutive number for each similar location; e.g. Bowling Alley X = 01, Bowling Alley Y = 02. If the activity and cost center cannot be traced to a specific site, the code "00" should be used to indicate that the activity and cost center does not align with a site. If only one physical location exists, use the code "01" to identify the location.

General Ledger Accounting Code (GLAC) (page 74)

A three-digit code that is used to record transactions relating to a Service's NAF program assets, liabilities, equity, revenue, and expenses. The GLAC is the central repository for accounting data transferred from all subledgers or modules like accounts payable, accounts receivable, cash management, fixed assets, purchasing and projects. The general ledger is the backbone of any accounting system which holds financial and non-financial data for an organization.

Chart of Accounts (page 79)

A list of the GLACs with a detailed definition of each account.

*Activities and Cost Centers are combined together into a single list - starting on page 15.

**Sites are Service-specific and not included in this document.
