SUBJECT: DoD Nonappropriated Fund Standard General Ledger Update 2025

Reference: Deputy Assistant Secretary of Defense (Military Community and Family Policy)
Memorandum, "DoD Nonappropriated Fund Standard General Ledger Update
2023," November 20, 2023

This memorandum revises the nonappropriated fund (NAF) standard general ledger (NAFSGL) and the NAF common accounting code framework at Attachments 1 through 7, which were previously revised and published by the referenced memorandum. The attachments are: (1) NAFSGL Framework; (2) Installation List; (3) Nonappropriated Fund Instrumentality (NAFI) Fund List; (4) Activity Code List; (5) Cost Center Code List; (6) General Ledger Accounting Code List; and (7) Chart of Accounts.

A joint working group comprised of senior NAF accounting experts from the Military Departments, the Defense Finance and Accounting Service, and members of my team updated this common NAF accounting framework.

This revised NAFSGL will apply to all DoD NAFIs, except NAFIs where accounting is currently performed through a Military Exchange financial system. For additional information, please contact Mr. Gerald Holliday at (571) 372-6580 and gerald.l.holliday.civ@mail.mil.

 - Updates the color used for “Reserved” accounts to orange
- Additions and Revisions to GLAC Listings
 - Adds a section with detailed lists of the GLACs that were updated or consolidated for Version 6.0

Nonappropriated Fund Common Account Code Elements

Nonappropriated Fund Common Account Code Elements Definitions

Installation - Page 4

A five-character code that indicates the Military Service and location where the NAF program is physically or virtually located. The first digit is an alpha character that serves as a Military Service designator (A = Air Force/Space Force, R = Army, M = Marine Corps, and N = Navy). The last four digits are a numeric string that designates the installation.

NAF Fund - Page 14

A three-digit code that indicates the NAF Program Group and the type of NAF operation (e.g. Military MWR, DoD Lodging, Military Academy Athletic Fund). A NAFI is a fiscal entity of the U.S. Government that is supported in whole or in part by NAFs. More information about NAF Program Groups and the definition of NAFIs is in DoDI 1015.15.

Activity - Page 17

A three-digit code that indicates a specific program or an operational program of a NAFI designed to increase the well-being of authorized MWR users. An activity identifies operational organizations within the service structure (e.g. bowling, camping, lodging, golf).

Cost Center - Page 22

A three-digit code that is a subset or sub account and gives a more detailed view of a business activity and used to identify the accounting subdivision of a NAFI. NAFIs consist of one or more subdivisions called cost centers. Transactions relating to one operational activity (e.g. a Club) are recorded into one or more cost centers (e.g. bar, restaurant, snack bar, etc.).

Site**

A two-digit code for similar activities operated at separate physical locations that are associated with the same installation. For example, an installation might have two bowling alleys or three clubs. The Military Service provides a consecutive number for each similar location; e.g. Bowling Alley X = 01, Bowling Alley Y = 02. If the activity and cost center cannot be traced to a specific site, the code "00" should be used to indicate that the activity and cost center does not align with a site. If only one physical location exists, use the code "01" to identify the location.

APF/NAF

A one-digit code used to differentiate revenues and expenses from NAF from those that are from APF. APF is received from a source outside the NAFI, such as the use of Uniform Funding and Management (UFM) or a reimbursement to the NAFI for NAF expended when APF is the proper source funding. 0 = NAF Only and 1 - 9 = APF.

General Ledger Accounting Code (GLAC) - Page 30

The first four-digit string refers to the DoD general account. XXXX = 1000 - 7999. (e.g. account 1000 = Cash in Bank, account 1770 = Intangible Assets, and account 2000 = Accounts Payable. Note: accounts 1000-1999 = Assets, 2000-2999 = Liabilities, 3000-3999 = Net Worth/Equities, 4000-4999 = Income [Operating], 5000-5999 = Expenses [Operating], 6000-6999 = Income [Non-operating], 7000-7999 = Expenses [Non-operating]).

The last four-digit string refers to the DoD detailed account description. For example, 0001 = Checking, 0002 = Local Checking Account, and 0003 = Local Bank Compensating Balance.

Chart of Accounts - Page 117

A list of the GLACs with a detailed definition of each account.

Notes:

**Site codes are Service-specific and not included in this document.

Nonappropriated Fund (NAF) Standard General Ledger (NAFSGL) Installation List Introduction

Definition:

A five-character code that indicates the Military Service and the location where the NAF program is physically located (state or territory), virtual, or a ship.

First Digit:

The first digit is an alpha character that serves as a Military Service designator

A = Air Force/Space Force

R = Army

M = Marine Corps

N = Navy

Last Four Digits:

The last four digits (XXXX) are a numeric string that designates each installation.

Note: The installations on this list were agreed upon by the NAF Accounting Working Group. If you have installations to change, add, or delete, please contact Gerald Holliday at (571) 372-6580 or gerald.l.holliday.civ@mail.mil
